

Bonderman Field Station at Rio Mesa

THE UNIVERSITY OF UTAH

Field Trip Awards for University of Utah Faculty/Instructors

The **Bonderman Field Station Research Directors** are **soliciting applications** for field trip awards from instructors at University of Utah. Two to three field trip awards are available in the amount of \$1000 each. These funds are meant to incentivize new field trips to Bonderman Field Station and to help subsidize the student cost of the trip. \$500 of the award is paid to the instructor as an honorarium, and up to \$500 can be spent on costs associated with food and travel for student participation. The field station mission is to promote and inspire environmental scholarship on the Colorado Plateau. We support education and research in all areas of science, arts, and humanities that aid in the understanding and appreciation of human-environment interactions.

The University of Utah's Rio Mesa Center is an outdoor laboratory located in southeastern Utah along the Dolores River, eight miles upstream from its junction with the Colorado River (1 hour from Moab).

To apply submit the course syllabus, expected enrollment, semester of offering, and a short summary of the benefits of a field trip to Bonderman Field Station at Rio Mesa for the expected learning outcomes of your course. Applications for **academic year 2018-2019** are due **May 8th 2018**.

Please submit your application to andrea.brunelle@geog.utah.edu and mitchell.power@geog.utah.edu

More information about Bonderman Field Station can be found on the official website: riomesa.utah.edu
